Cartmel extracts teeth without pain.

The curtain at Beechwood Park will rise to-night at 8:15 promptly.

Mrs. S. P. Baird of Carlisle arrived Saturday to attend the funeral of the late Lissant Cox.

The F. P. V. train was one hour and thirty minutes late last night caused by waiting on the Big Four train from Chicago.

Mr. Fred Singleton of the Mayeville Telephone Company was in Elizaville Saturday putting in a switchboard for the exchange at that point.

Mr. C. A. Hainline has joined his family in Mt. Sterling for a few days and during his absence Misses Sallie Burrows and Edna Lytle are attending strictly to business and keeping things in apple pie order.

The remains of Mr. Luke Smith, formerly of this city, and a brother of Rev. Father Smith of Covington, arrived here on the 10 o'clock C. and O. train this morning and were taken to Washington for burial.

Just received a new line of Neck Chains, Crosses, Lockets, Blouse Sets, New Style Bracelets, Side and Back Combs, New Hat Pins, Set Rings, Cuffbuttons, Brooches, Pins for Ladies and Gentlemen. P. J. MURPHY, the Jeweler.

The late Lissant Cox was a generous subscriber to the fund for building the Washington Opera-house, having in all given \$1,100 for the purpose. As a mark of respect, the hall of Washington Fire Company will be tolled during the hour of his funeral this afternoon.

First section of freight train No. 75 West-bound on the C. and O. was wrecked this morning at Newport, the heavy rain there yesterday afternoon washing the roadbed. It required the combined efforts of the Covington and Huntington wrecking crews to clear the track. Traffic was delayed about twelve hours.

MR. JOSEPH F. BRODRICK.

Mr. Joseph F. Brodrick, a native of this county, died Saturday morning at the home of his son-in-law, Rev. Hitner, Pastor of the Presbyterian Church at Montgomery, W. Va., at the advanced age of 90 years.

The deceased was born near the home of his uncle, the late George L. Forman, near Lawrence Creek.

He was educated in the best schools of the day—at that time of a high character in Mason county—and when quite a young man qualified himself for mercantile affairs by studying the art of the accountant.

During the latter part of his life he was a member of the celebrated drug firm of Seaton & Brodrick.

Dr. A. Seaton, who died many years ago, and Mr. John A. Seaton, now of Cleveland, O., were his business associates.

He was a staunch Union man.

His father was a soldier of the War of 1812, and figured conspicuously in the famous Scott expedition.

Early in life he married one of the lovely twin daughters of Mr. Edward Cox, who was a native of England, and a very eccentric and accomplished man.

The other daughter married Hon. Richard H. Collins, the foremost historian of Kentucky.

Mr. Brodrick was a member of the Presbyterian Church, having connected himself with the Mayeville Church during the pastorate of Dr. Robert C. Grundy.

Those who knew him will never forget the charm of his companionship.

Curious, humorous and irascible, he was prone to take sudden and extreme positions which he held with a tenacity worthy of the sire who fought in the War of 1812.

No man ever knew him who did not love his odd, charming ways, and many of our old country homes carry traditions of his wit and humor which will long survive the generation in which we live.

He leaves one daughter, Mrs. Phoebe Brodrick Hitner of Montgomery, W. Va.

The remains will arrive here on the 3:30 C. and O. train this afternoon and be taken direct to the Cemetery, where they will be laid to rest after services by Rev. John Barbour.

SATURDAY NIGHT SHOOTING

William Dickson Badly Wounded By James Butcher

Saturday night about 8 o'clock a shooting occurred just outside the city limits on the Germantown pike.

James Butcher and William Dickson are related by marriage. There is no special love existing between the two men, rather an ill feeling, so it is said.

In this affair, as in all others, there are two versions, each one laying the blame on the other fellow.

According to Dickson's story he was returning to his home in the country, and when opposite the Butcher home was hailed by the women folks, who came down to his buggy and engaged him in conversation. He had been inspecting a No. 22 Flobert rifle, and had just returned it to the hands of one of the women when Butcher appeared on the scene, and taking the rifle in his own hands, asked him "what the hell he had to do with it."

Believing that he meant him bodily harm he struck Butcher with his buggy whip, and as he did so the shooting took place.

Butcher tells quite a different story. He says Dickson was the aggressor and was altogether responsible for the outcome.

The wounded man was taken to his friend Gilbert's home in the West End. An examination being made by Dr. Yazell it was found that the ball had entered at the left arm pit, penetrating the outer wall and embedded itself in the lung. The wound is considered dangerous, and requires careful attention.

Dickson was seen on the street yesterday, presumed to be on his way to the depot to go to the home of his relatives near Quincy.

They were arrested by Constable Marsh and their examining trial held this morning in Squire Grant's Court at 9 o'clock.

The C. and O. pay car was here Saturday on its regular monthly trip.

Several farmers report wheat bad in the thresh, in many cases having heated and rotted. All indications generally point to low grading.

Dolly, the eight-year-old daughter of Norman Massie of Tuckahoe, was taken to Christ's Hospital, Cincinnati, a few days ago by her father and Dr. E. E. Bickers, to be operated upon for cancerous tumors. Friday the hospital physicians notified her father that they would not operate upon her, as they thought she would not survive it. She is slowly dying from the malady.

Dr. C. W. Aitkin of Lexington, formerly of Flemingsburg, has filed suit at Louisville against the Pullman Company for \$15,000 damages for injuries received while traveling in a car of the company. He alleges that he was a passenger on the Denver and Rio Grande Railroad from Colorado Springs to Sacramento, Cal., and was struck on the head while the berth was being made down.

Surprise is expressed in building trade journals, as to the rapid and steadily continuing improvement in country homes all over the country. Outside contracts hereabouts this season have played important part in engrossing mechanical skill. George H. Traxel was lately requisitioned to install an approved sanitary plumbing system for a handsome modern home, constructed by W. G. Knoedler, the Augusta Druggist. This new home will rank with the finest and most carefully constructed in Bracken county.

Louis Garret, aged 28, of Newport, and his seventeen-year-old wife, formed a suicide compact, agreeing to jump from the bridge into the river. Arriving at the scene of their contemplated crime they began arguing as to which should jump first. The bridge patrolman overheard the remarks of the excited couple and reached the wife just as she was about to make the fatal plunge. Garret and his wife were placed under arrest.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

WHY?

Why are the good cooks getting so scarce in Mayeville?
Because so many of them have gone and are going every day or so to Cincinnati, Dayton, Washington C. H. and other Ohio towns.
Why do these good cooks leave Mayeville to go to Cincinnati and other towns mentioned?
Because they get more money for less HARD work.

How is it that one woman can do all the cooking and house work, and even laundering, too, at these other places and yet be said to do less HARD work than she would have to do just cooking alone in Mayeville?
Because cooking with Gas removes all the burden of kitchen labor, saves half the time, and leaves the cook fresh and able to do the other lighter housework, and even the laundering where Gas is used for that purpose also.

BRING IT HOME TO YOURSELF!

What would you do if you were the cook? Go away like the rest of them. It is a practical proposition. If you want to keep your cook put yourself on an equal footing with your neighbors across the river.

PITY the sorrows of Mayor HELMBOLD—sans teeth, sans cuff, sans sense.

It was bad enough that Mayor HELMBOLD lost his vegetable ivory front teeth in the Battle of Newport, but the destruction of his celluloid cuff was the limit.

Most of the Democrats—and a fairly good sized bunch of original Goebelites—approve the fairness of Judge COCHRAN's decision in the Caleb Powers case. The only fellows I know who hold out against it are Mayor HELMBOLD of Newport, "Pitby Points," and Editor WATSON of Frankfort. The former is under bond to be indicted by the Federal Grand Jury, and the latter had his leg chewed up in a railway accident a few days ago.

If this thing keeps up, I'm going to apply for a patent on guessing. When several thousand fool teamsters went on strike in Chicago two months ago because a clothing firm wouldn't reinstate nineteen so-called Union garment cutters who walked out in October last, I said that the strike would be a fizzle, and the chief sufferers would be the strikers themselves. And now 4,000 of the sillies have made a rush for their old jobs, at the same old wages, and with the garment cutters unreinstated; but the employers have only 1,400 places into which the applicants can be fitted, while those taken back have signed an agreement not to wear the Union button where it can be seen. Next.

THE Washington correspondent of The Louisville Times says it has been discovered that if the Esch-Townsend Railroad Rate Bill had been passed by Congress it might have resulted in the abolition of the Jim Crow car laws of the various Southern states. That bill makes it within the power of the Commission created by it to prevent any discrimination in passenger traffic, as well as in freight traffic, on trains engaged in interstate commerce. So set were the people on having something done that not even Southern Congressmen seemed to notice that dangerous little clause, and had the Senate been as responsive to public clamor as the House was, there would be today on the statute books a law which would make it within the power of the Commission to render practically a nullity the benefits growing out of Jim Crow car laws. There was not a member of the House from the entire South who voted against the bill, notwithstanding the dangerous clause was in it.

In Section 1 of the Esch-Townsend Bill there occurs the following language—

"Be it enacted, That whenever any complaint is made of any existing regulation or practice whatsoever affecting the transportation of persons or property, the Commission shall have the power, and it shall be its duty, to declare and order what shall be a just and reasonable practice or regulation, to be followed in the future in the place of that found to be unreasonable or discriminatory."

It will be seen by this that it would have been within the power of the Commission to declare the Jim Crow car laws unjustly discriminatory.

When the Esch-Townsend Bill is analyzed, it has other provisions almost as faulty, and that it did not become a law was due only to the conservatism of the Senate. It was the design of the makers of the Constitution that the Senate should not be elected by the people direct, so as to keep them from being subject to public clamor, and it was the fact that they were a conservative body that the Esch-Townsend Bill did not pass. The President wanted it to go through, and the House did what it could to get it through.

STRANGE ADVICE!

Dr. G. G. Green gives alert personal attention to his great humanitarian contract.

IN our Almanac for many years past we have given unusual advice to those afflicted with coughs, colds, throat or lung troubles or consumption. We have told them if they did not receive any special benefit after the use of one 75-cent size bottle of German Syrup, to consult their doctor. We did not ask them or urge them to use a large number of bottles, as is the case in the advertising of many other remedies. Our confidence in German Syrup makes it possible for us to give such advice. We know by the experience of over 35 years that one 75-cent bottle of German Syrup will speedily relieve or cure the worst coughs, colds, bronchial or lung troubles—and that, even in bad cases of consumption, one large bottle of German Syrup will work wonders. New trial bottles, 25c; regular size, 75c. At all druggists.

THE CALEB POWERS CASE

Ex-Governor Yates Explains the Action of Judge A. M. J. Cochran

Gives a History of the Proceedings in the Federal Court and the Constitutional Points Raised

In regard to the action on Friday last, the 7th instant, at Maysville, Ky., in the United States Circuit Court for the Eastern District of Kentucky, by Judge Andrew M. J. Cochran, Judge of that Court, in the case of the Commonwealth of Kentucky v. Caleb Powers, pending upon a motion for a writ of habeas corpus cum causa, to bring up from the State Circuit Court of Scott county, all the record in the cause as well as the person of Caleb Powers, after the filing of a petition for removal of the cause for trial, ex-Governor Richard Yates, who has just returned to Springfield from his third trip to Kentucky in this case, yesterday said to a reporter of The State Register:

"I am very glad, indeed, to have the opportunity to say something about the Powers Case, as it is commonly called, for the reason that I have had so many inquiries, both by letter and in person, from so many people, that I am convinced that the case is, on the one hand, of interest to a great many persons, and is, on the other hand, not thoroughly understood. There seems to be a general desire to find out just what English just what is involved and just what has been accomplished in the long and great fight to secure a fair and impartial trial for this young man, who for five years and four months has been confined in various Kentucky jails upon the charge of being accessory to the murder of State Senator William Goebel in February, 1900.

WHAT JUDGE COCHRAN'S DECISION MEANS.
"The plain English of the matter is, that Judge Cochran's decision is not a decision on appeal; it is not a decision overruling or reversing anything the state Court has done; there is and has been thus far no appeal to the United States Court as so many seem to imagine. Judge Cochran's decision simply removes the cause to the United States for trial. If the Kentucky authorities do not get out a writ of mandamus from the United States Supreme

Court, or in some other way bring about some action of the Federal Supreme Court, overruling or suspending Judge Cochran's decision, there will be a trial by Jury in the United States Court this fall. This Jury will come from the panel of the Federal Court and will have from about fifty counties. It will not be selected from any one political party and will not be made up for the purpose of convicting or acquitting Powers; because it will be the regular Federal Jury selected in the regular impartial way. We have not sought to remove our case to the Federal Court because it is a Republican Court, or because we expect to surely acquit Powers there. It is entirely possible that some juror may think him guilty and may hang the Jury. Of course we expect to ultimately acquit him because we believe he is innocent, and that the fairly selected Federal Jurors will not believe a lot of evidence, so-called, which has been presented in the three trials which have heretofore taken place in the State Courts, and which has evidently been believed by the state juries, or pretended to be believed by them.

THREE TRIALS IN STATE COURT.

"There have been three trials of Powers in the State Court. He has been convicted and sentenced three times and each time the Court of Appeals of Kentucky, a most high-minded tribunal, has reversed the decision and sent the case back for trial. It was pending for a fourth trial in the Scott County Circuit Court at Georgetown, when, on May 1st, and again on May 3d, we presented ourselves with this petition for removal of the cause to the United States Court. The officers of the State Court were very courteous to us all, but as firm as they were courteous; the Prosecuting Attorney objected to our even filing the petition, and the Judge, after allowing us to file it, set aside the order and continued the whole matter, trial, which he set for Monday, July 10th, although we endeavored to satisfy all the officials that under the provisions of the Revised Statutes, Section 64, referring to removal of causes for denials of civil rights by states 'all proceedings shall cease' upon the filing of the petition in the State Court. There was, thereupon, nothing for us to do but to file the same petition (which had thus been postponed without either allowing or denying it) in the United States Court of the District in which the offense charged was committed; and under the law we had to do this at the very next term of the Federal Court. This next term occurred, as it so happened, at London, the county seat of one of the mountain counties, in which nearly every

man, woman and child was Powers's friend and supporter, although he did not live there. I was told by a number of men up there that if Powers was ever acquitted no power could keep him from going to Congress or to the Supreme Bench or to any other honor within the gift of that section of Kentucky. When we presented our petition there it was at once docketed, but the Judge, very wisely, as I think, did not act hastily, and stated that he would not take possession or custody of Powers and would not even decide whether the Federal Court had jurisdiction, not after thorough argument and investigation of the whole question.

THE QUESTION OF JURISDICTION.

"Accordingly the question of jurisdiction—in other words, the question whether the steps taken by Powers and his counsel, in filing the petition, constituted a ground for removal and for the taking of jurisdiction, was set for hearing one month later, on June 8th, at Maysville, which is the county seat of the county in which Judge Cochran was born and now resides. All must agree that the Judge acted with the greatest deliberation, especially when it is observed that he took a whole month when the two days argument, in which to form and prepare his decision and opinion, I found no man, either Democrat or Republican, who ventured any other opinion than that Judge Cochran had been most painstaking and most unimpeachably conscientious in the whole matter. Thousands of Kentucky Democrats are not prejudiced.

"In his opinion, which it took him three hours to read, Judge Cochran reviewed the whole theory and history of American trial by Jury and especially trial by Jury after the

SAVED FROM DROWNING

Wife of the Rev. S. G. Bettes Has Thrilling Experience

Mrs. Mary H. Bettes, wife of Rev. S. G. Bettes, a Methodist Minister, was saved from drowning by her husband Friday morning at Anderson's Ferry, below Cincinnati.

Mrs. Bettes, while on her husband's yacht, fell overboard completely helpless. Her daughter was the only one who saw it and screamed for her father, who plunged into the stream.

The yacht was anchored some distance from the shore, and the current being swift it took the Minister several minutes to reach his wife. He had much difficulty in locating her as she went under the waves, only to reappear further down stream.

By skillful swimming he finally overtook her and, once within reach, he grabbed her by the clothing and swam ashore. She was revived and found to be all right.

Rev. Mr. Bettes is a traveling Minister and is on his way to Panama to do missionary work along the new canal. He, with his family, left the Little Kanawha river in West Virginia several months ago and en route down the Ohio spent a few days in this city.

ONLY ONE.

The Record in Maysville is a Unique One.

If the reader has a "bad back" or any kidney ailment and is looking for relief and cure, better depend on the only remedy endorsed by people you know. Doan's Kidney Pills relieve quickly—cure permanently. Maysville citizens testify to this. Here is a case of it:

Henry Bertram, shoemaker, 27 East Third street, Maysville, Ky., says:

"I believe everybody in Maysville has read in the papers the testimony I gave in March, 1900, about Doan's Kidney Pills, for I have been asked again and again by residents of this town if that statement were true. For the benefit of persons who may now be suffering from forms of kidney trouble I repeat my testimony. Before I got Doan's Kidney Pills at J. Jas. Wood & Son's Drugstore I had suffered for some time with backache and a tired feeling and having nothing in and about the kidneys. Being a shoemaker, I thought my trouble was caused by my work, for every time I took cold it settled in my back, but Doan's Kidney Pills quickly rid me of the trouble, and never from that time to this have I had any cause to complain of my back or kidneys. Doan's Kidney Pills perform exactly what they promise, and to be honest with you, I will say that, in my opinion, there is no remedy for kidney disorders equal to Doan's Kidney Pills."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitutes.
